Thank you for choosing EDUCIRO

We see learning through play as crucial for children's positive development, regardless of their situation. Promoting children's drive and motivation to learn, their ability to come up with ideas and imagine alternatives, as well as to connect with others and their surroundings in positive ways, which is essential in the 21st-century. Start your first experience with the clear and illustrated instructions.

The Crusherbot Robot Building Kit suitable for 8-12 year old boys girls, and it can be remote control and programming by remote and app which is easy to use in IOS and Android Systems.

EDUCIRO strives toward higher than required standards to ensure that we not only meet the acceptable limits of compliance, but more often exceed them. We tests every product to ensure **100%** compliance with the entire Consumer Product Safety Improvement Act (CPSIA), American Society of Testing Materials (ASTM), Children's Product Certificate(CPC), EN71, CCC, and manufactured under licences of BSCI, ISO 9001.

STEM education is a multi-discipline approach to teaching that combines science, technology, engineering and math. Currently, most countries have increased their support for STEM education from primary school to university to encourage discussions and problem-solving skills, develop both practical skills and appreciation for collaborations. EDUCIRO R&D team has been developing MOC building blocks for those who are interested in STEM learning. If u are one of the STEM learners, it will be much appreciated if u email us with your suggestions at support@educiro.com.
